

## Hi Neighbor!

We're 1PointFive - a carbon removal and sequestration company working to provide solutions like geologic sequestration at a climate-relevant scale. Ongoing evaluations are underway for "Pelican", our proposed carbon sequestration project within Livingston Parish.

We wanted to re-introduce ourselves and let you know of upcoming mailings that you will see in the next few months.

## Clear Communication

We know clear communication is important to you. Every few weeks, you will receive a postcard from 1PointFive. We will answer common questions we have received from across Livingston Parish.

If you would like to submit a question for us to answer in a mailing, please reach out to us. We look forward to hearing from you!

## The 1PointFive Stakeholder Relations Team

The Stakeholder Relations team is a dedicated resource for your community to answer questions, provide project updates, and more.

We look forward to listening and having an opportunity to share information about our project.
